Type hierarchy of 'org.springframework.beans.factory.BeanFactory':

BeanFactory - org.springframework.beans.factory   spring容器顶层接口
   SimpleJndiBeanFactory - org.springframework.jndi.support
   AutowireCapableBeanFactory - org.springframework.beans.factory.config
   HierarchicalBeanFactory - org.springframework.beans.factory
     ApplicationContext - org.springframework.context   我们常用的
       ConfigurableApplicationContext - org.springframework.context
        AbstractApplicationContext - org.springframework.context.
         AbstractRefreshableApplicationContext - org.springfr
          AbstractRefreshableConfigApplicationContext - or
           AbstractXmlApplicationContext - org.springfr

两个实现类
基于xml配置
            ClassPathXmlApplicationContext - org.spr
            FileSystemXmlApplicationContext - org.sp
         GenericApplicationContext - org.springframework.cont

基于注解配置的
实现类
          AnnotationConfigApplicationContext - org.springf
          GenericGroovyApplicationContext - org.springfram
          GenericXmlApplicationContext - org.springframewo
          StaticApplicationContext - org.springframework.c
     ConfigurableBeanFactory - org.springframework.beans.factory.confi
   ListableBeanFactory - org.springframework.beans.factory
